Supporting the following items

## Model Smart Green City Plan for Bahir Dar

Cooperation Concept between Bahir Dar Metropolitan City Administration and relevant stakeholder, i.e. City of Vienna Austria, in regards of the following items

### 1. Urban Planning

- City Park Development
- Cobble Stone technology
- Inner City Renewal including Slum Upgrading development strategy
- City land use map revision – technical support
- House and Street naming

### 2. Sewerage and drainage system development

- Artificial Lake, channeling out at minimum expenses
- Considering Topography of Bahir Dar region
- Sanitary Engineers
- Flood control facilities

### 3. Waste Management System

- Waste recycling
- Energy recovering
- Organic fertilizer preparation
- Biofuel preparations
- Integrated and sustainable solid waste management
- Sanitary landfill

**4. Tourism Management**

- Meeting, Incentives, Conference and Exhibition Tourism – MICE Tourism
- Eco Tourism
- Tourism Infrastructure Development Concept
- HUB-Fuction: Godar, Lalibella, Axum, Lake Tana – Monasteries, Titsate Fall
- Historical Sites and World Heritage: UNESCO registered among 40 sites world wide
- Tourism shall be developed to function as economic base for Bahir Dar

**5. Managing Crosscutting Issues**

- Unemployment
- Social evils
- Environment
- Gender
- Training – social competence, success principles
- Others

**6. Labor Market**

- Creating job opportunities; especially for vulnerable groups, i.e. handicaps, women, street youth

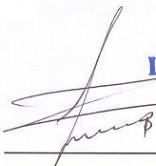

**7. LakeTana Cleaning Program – Blue Nile**

- Canal system
- Weeds
- Protecting Siltation

**8. Knowledge Transfer**

**9. Submission and Funding**

- ADA recommends to involve international NGO's, i.e. Austrian based NGOs like GAFÉIAS or Austrian-Ethiopian Society, in order to short cut fund mobilization
- UNIDO submission via GAFÉIAS recommendation
