

ENVOLIFE - High Risk Street Children Aid in Ethiopia

News, October 24, 2013, by Filmon Lebelo

Tesfaye Nigusu, Musie Tadesse and I have been working on *Bahir Dar High Risk Children* project. Aneagerie Mekonen collected information and different kinds of data from the Municipal Council of Bahir Dar, which can be used as an input for the project we are drafting for Bahir Dar. He has been also instructed to identify possible stakeholders in our work and make good contacts. We are looking forward to more research we need to conduct.

Tesfaye Nigusu is working on the High Risk Children project for Bahir Dar and he will post it to us this week for review - for Musie Tadesse and me. And later on it will be presented to all Board members of GAFÉIAS ETHIOPIA for their important feedback. Tesfaye Nigusu is also instructing Aneagrie Mekonen on possible next steps, like recruiting children for the project and setting some criteria for the recruitments.

Me and Musie Tadesse are following the updates from all project experts and helping in facilitation of the work.
